Field Crop Abstracts

is a monthly journal prepared by the
C·A·B INTERNATIONAL BUREAU OF
PASTURES AND FIELD CROPS

Chief Managing Editor (Plant Sciences) and Managing Editor of Bureau
P. Wightman, BSc

Scientific Information Officers
J. Armstrong, MA, Dip Agric, DTA
R. Boyce, BSc, MIInfSc
Angela M. Hall, PhD
Rosemary E. Hill, BSc
Susan E. Hill, BSc
Janet M. Kisz BSc
M. S. Mahal, PhD
Eng Cheng Siong, BSc
Ruth E. Wilson, BSc, BAgr

Consultant Director
J. H. D. Prescott, PhD, FIBiol

The Bureau of Pastures and Field Crops (CBPFC) is one of 11 Bureaux belonging to the Information Services of C·A·B International, a not-for-profit, inter-governmental organization which exists to provide information, scientific and development services for agriculture and allied disciplines throughout the world.

CBPFC also prepares *Herbage Abstracts, Crop Physiology Abstracts, Faba Bean Abstracts, Lentil Abstracts, Potato Abstracts, Rice Abstracts, Seed Abstracts* and *Soyabean Abstracts.*

For further details of the whole range of C·A·B International publications and services see back cover.

Orders and enquiries concerning current subscriptions and back numbers should be sent to:

C·A·B INTERNATIONAL

C·A·B INTERNATIONAL (CABI), formerly the Commonwealth Agricultural Bureaux, is a cooperative not-for-profit organization owned, administered and financed by member governments. It was established in 1928, currently has 29 members, and has the status and privileges of an international organization in the UK. A new treaty-level constitution, giving CABI the status of an Inter-Governmental Organization, has received the necessary ratification by Member Countries and is now in the process of being registered with the U.N.

CABI's organizational structure comprises the Review Conference of member governments, which meets every five years; the Executive Council, with one representative from each member government, which meets four times per year; and the Directorate, including CABI Headquarters, its 4 Institutes and 11 Bureaux. The Director General is the chief executive, controlling the 410 staff, two thirds of whom are at managerial or professional level, through three Directors, for Information, Scientific and Administrative Services.

The organization exists to provide information, scientific and development services for agriculture and allied disciplines throughout the world.

INFORMATION SERVICES

The chief function of the Information Services is to provide ready access to published information on research in agriculture and allied disciplines, including rural development.

Over 100 scientists/linguists in CABI's eleven Bureaux, each one specialising in a particular subject area, scan the world literature, select the significant items, and prepare an informative abstract of each which is entered into the CAB ABSTRACTS bibliographic database. With some 2 million records in the database since 1973, and 3 million more in printed journals back to 1930, the total archive provides a unique encyclopaedic resource of unsurpassed reliability and quality.

The CAB ABSTRACTS database is publicly accessible online from major international online vendors. It is used to provide current awareness and retrospective information services in hard copy and machine-readable form. Chief among these are 46 printed abstract journals, which are taken by 10,000 subscribing organizations worldwide. New journals are started in response to changing users' needs or if sponsors guarantee the circulation. Users needing more specific information may select outputs that match their particular requirements, helped if necessary by CABI's subject experts; outputs are supplied as magnetic tape, computer printout, microfiche or floppy disk. The database is also available for testing on optical disk (CD-ROM), a new technology ideally suited to developing countries. To complete the service, photocopies of original articles are provided on request through the CABI Library Services.

Other functions of the Information Services include compilation of specialized databanks and directories, publication of primary journals, authoritative reviews and books, and training in information transfer for librarians, documentalists and information specialists.

SCIENTIFIC SERVICES

The Scientific Services of CABI are conducted by four Institutes, which provide an international service on pest identification and management. They deal with insect pests, fungal and bacterial agents, and human, animal and plant parasites and with all aspects and types of biological control of plant pests.

CAB International Institute of Entomology (CIE)

CIE provides an identification service for insects, mites and other arthropods, especially species that are of actual or potential importance as pests, parasitoids, predators and pollinators or are otherwise relevant to agriculture, forestry or related subjects. Contract research is also undertaken in these fields. The Institute's taxonomists work in the British Museum (Natural History) where they have access to the Museum's 23 million reference specimens of insects and mites, an incomparable aid to authoritative identifications and research on arthropod classification.

CAB International Mycological Institute (CMI)

CMI is the largest centre for systematic mycology in the world and provides a service for the identification of filamentous fungi and plant-pathogenic bacteria. It has about 300,000 dried reference specimens, a culture collection of more than 12,500 isolates, and extensive library, a Biodeterioration and Industrial Services Laboratory, a Biochemical Laboratory, and a Plant Pathology Liaison Unit. The Institute provides a wide range of consultancy and contract services for plant pathologists and industry. It incorporates the UK National Collection of Fungus Cultures and the Biodeterioration Centre.

CAB International Institute of Parasitology (CIP)

CIP provides an identification service for plant-parasitic and entomophilic nematodes, and helminth parasites of animals and man. The reference collections contain over 65,000 specimens, and an extensive specialist library is maintained. The Tropical Plant Nematology Advisory and Research Unit provides practical advice on plant-parasitic nematodes and their control worldwide, and the Institute also houses the WHO Filarial Reference Collection.

CAB International Institute of Biological Control (CIBC)

CIBC provides information and advice on biological control, undertakes research and implementation of programmes on biological control of major pests and weeds, and participates in integrated pest management programmes in association with other agencies. It has its headquarters in the UK but operates also from stations at Delémont, Switzerland; Rawalpindi, Pakistan; Nairobi, Kenya; and Curepe, Trinidad, West Indies.

All four Institutes carry out research, and offer a wide range of training activities from postgraduate studentships to special training courses both in the UK and abroad.

DEVELOPMENT SERVICES

The Development Services Group was established in 1986 to provide a sharper focus for CABI's consulting activities. It draws heavily on the unique scientific expertise and information resources available in the CABI Institutes and Bureaux, and its activities are backed by nearly sixty years of CABI involvement in science and world agriculture.

The Development Services offer practical advice and assistance on many pest-related or environmental problems in agriculture. Specific services include:

— project appraisal
— advice in a range of scientific disciplines
— research supervision
— research evaluation
— project implementation.

These services are offered in situations ranging from short-term individual consultancies to project components and major development projects. The current focus is on:

— integrated pest management programmes
— national crop protection services
— pest/disease identification and control
— crop-orientated pest and disease surveys.

One component of these activities that can be extended to any branch of agriculture or development is the provision of a comprehensive information service, involving expert review and analysis of all relevant literature.

LIAISON OFFICERS — NOVEMBER 1987

Contributing Country	*Liaison Officer*	*Address*
United Kingdom	Mr. F. G. Raymond	Head of Branch A Research and Development Requirements Division. Ministry of Agriculture Fisheries and Food, Whitehall Place, London SW1A 2HH
Canada	Dr. R. Trottier	Research Coordinator (Protection) Research Branch, Agriculture Canada, Sir John Carling Bldg. Ottawa, Ontario, K1A OC5
Australia	Dr. J. B. Allen	Commonwealth Scientific & Industrial Research Organization, P.O. Box 225, Dickson, ACT 2602
New Zealand	Mr. C. M. Palmer	Director (International Science) Department of Scientific & Industrial Research, Private Bag, Wellington
India	Dr. N. S. Randhawa	Director-General, Indian Council of Agricultural Research, Krishi Bhavan, New Delhi, 110001
Sri Lanka	Dr. I. Goonewardena	Director of Agriculture, Dept of Agriculture, Peradeniya
Ghana	Executive Chairman	Council for Scientific & Industrial Research, P.O. Box M32, Accra

Malaysia	Mr Mohamed Yasin Saleh	Principal Asst. Secretary, International Division, Ministry of Agriculture, Jalan Mahameru, Kuala Lumpur.
Nigeria	The Director	Agricultural Sciences Research Dept. Moor Plantation, Private Mail Bag No. 5382, Ibadan
Cyprus	Dr. A. Louca	Director-General, Ministry of Agriculture & Natural Resources, Nicosia
Sierra Leone	Senior Lecturer	Njala University College, University of Sierra Leone, PMB. Freetown
Tanzania	Director of Agriculture	Ministry of Agriculture, P.O. Box 9071, Dar-es-Salaam
Jamaica	Dr. R. J. Barker	Research & Development Division, Ministry of Agriculture, P.O. Box 480, Kingston 6
Trinidad & Tobago	Chief Technical Officer (Crop Research)	Ministry of Agriculture, Lands and Food Production, Research Div. Central Experiment Station, Centeno, P.O., Arima, Trinidad & Tobago
Uganda	Permanent Secretary	Ministry of Agriculture & Forestry, P.O. Box 102, Entebbe
Kenya	W. W. Wapakala	Ministry of Agriculture, P.O. Box 30028, Nairobi
Malawi	Chief Agricultural Research Officer	Ministry of Agriculture & Natural Resources, P.O. Box 30134, Capital City, Lilongwe 3
Zambia	Mr. Edward Lumande Librarian	Mount Makulu Central Research Station, PO Box 7, Chilango
The Gambia	Permanent Secretary	Ministry of Agriculture & Natural Resources, The Quadrangle, Banjul
Guyana	Dr Michael Granger Director	National Agricultural Research Institute, Georgetown, Guyana
Botswana	Permanent Secretary	Ministry of Agriculture, Common Service Division, Private Bag 0028, Gabarone
Mauritius	K. Lutchmeenaraidoo	Chief Agricultural Officer, Agricultural Service, Reduit
Fiji	Permanent Secretary	Ministry of Agriculture, Fisheries and Forests, Rodwell Road, Suva
Bangladesh	The Executive Vice-Chairman	Bangladesh Agricultural Research Council, New Airport Road, Farm Gate, GPO Box 3041 Dhaka, Bangladesh
The Bahamas	Director of Agriculture	Ministry of Agriculture, Fisheries & Local Government, P.O. Box 3028, Nassau
Papua New Guinea	The Secretary	Dept of Primary Industry, P.O. Box 417, Konedobu
Zimbabwe	Mr. R. J. Fenner	Ag. Director, Dept of Research & Specialist Services, Ministry of Agriculture, P.O. Box 8108, Causeway, Harare
Solomon Islands	Mr. Ezekiel Walaodo	Under Secretary (Agriculture) Ministry of Agriculture & Lands, P.O. Box G13, Honiara
Brunei Darussalam	Dr. Morni bin Othman	Dept of Agriculture, Ministry of Development, Negara, Brunei Darussalam.

NOTES TO READERS

The address given at the end of abstract citations is that of the first author and normally denotes the address at which the work was carried out.

Transliteration of Cyrillic script is based on the International Standard ISO/R9 1968 (E).

LANGUAGE SYMBOLS

The language symbols used are listed below. An initial capital letter denotes the main language of a paper, a small letter the language of the summary (ies).

Af	Afrikaans	Fi	Finnish	Nl	Dutch/Flemish

C·A·B INTERNATIONAL BUREAU OF PASTURES AND FIELD CROPS

C·A·B International, Wallingford, Oxon OX10 8DE, UK Tel. Wallingford (0491) 32111

The C·A·B International Bureau of Pastures and Field Crops was located at the Animal and Grassland Research Institute, Hurley, until August 1987 when it moved to the new C·A·B International Centre at Wallingford.

The Bureau of Pastures and Field Crops prepares records for two monthly main journals, *Field Crop Abstracts* and *Herbage Abstracts*. These journals cover world scientific literature on annual field crops, pastures, herbage crops and rangelands and provide a comprehensive guide to current scientific developments and a key to literature published in the past. The Bureau also publishes review articles on selected subjects in *Herbage Abstracts* and *Field Crop Abstracts*. Until August 1987 the Bureau was also responsible for *Weed Abstracts* but this journal is now prepared by the C·A·B International Bureau of Crop Protection.

Scope of *Field Crop Abstracts:* The subjects covered include the agronomy and biology of all annual field crops grown for food, fodder, oil and fibre, and of tobacco. Land use, farming systems, agricultural meteorology and the control of weeds, pests and diseases are dealt with in so far as they concern the crop coverage.

The Bureau is prepared, on request, to undertake literature searches and to compile bibliographies on subjects within its scope.

C·A·B INTERNATIONAL
PUBLICATIONS AND SERVICES

GENERAL INFORMATION

C·A·B International (CABI, formerly the Commonwealth Agricultural Bureaux) is an international non-profit organization controlled by governments of member countries. Its main function is to provide a world-wide information service in agriculture, forestry and related areas of applied biology, sociology, economics, engineering and medicine. Two other scientific services are responsible for pest and disease identification, and the application of biological techniques to pest management, and a further new arm — the Development Services — formed in 1986, co-ordinates CABI's consultancy expertise.
C·A·B International is best known for its abstract journals covering each of the main agricultural disciplines (for full list of titles see back cover). The wide range of other publications includes annotated bibliographies, reviews, authoritative books and reference works, and specialized aids to the management of pests and diseases.

Abstract Journals

The 47 abstract journals, which cover specific agricultural disciplines, specialist crops or products, or particular animals are all derived from the CABI production database. In 1988 input to the database will amount to approximately 140 000 records prepared from around 15 000 serials and many other scientific publications in virtually any language.

Annotated Bibliographies

Over 3000 annotated bibliographies on a wide variety of topics are available. Many are the result of requests and are in photocopy format with abstracts in chronological order but without indexes. Others, on particularly topical or popular subjects are typeset, the abstracts being classified and indexed; some are preceded by a review article. Annotated bibliography topics may be extended to current awareness profiles to ensure that the information base is kept up to date.

Online Searching

The CAB ABSTRACTS database is available for online searching at DIALOG (USA), BRS (USA), ESA/IRS (Italy), CAN/OLE (Canada), JICST (Japan) and DIMDI (FRG). CAB ABSTRACTS contains over 2 million records dating from 1972. Online retrieval is a highly cost-effective way of carrying out literature searches and provides users with a printout of records on their specific subjects. Search aids available include the comprehensive CAB ABSTRACTS Online Manual, the CAB Thesaurus and the CAB Serials Checklist.

Magnetic Tapes

The database is leased on magnetic tape on a calendar year basis by many organizations. The lease fee, payable in advance, includes usage to a pre-set limit; additional usage is charged for at the end of the year. Current tapes are delivered monthly, and retrospective tapes as required. Technical data and sample tapes are available.

SDI Service

SDI (Selective Dissemination of Information) is a regular current awareness service based on the most recent input to the database processed at the C·A·B International computer centre, i.e. 6-8 weeks in advance of publication in the abstract journals or availability through international online vendors. Subscribers decide their own search profile and receive search results at intervals of their own choice, e.g. monthly, quarterly, even weekly. The search printout contains full bibliographic details and an informative abstract for each record retrieved.

CAB Alerts

This new service is based on the SDI service described above. A number of standard profiles on topics of current interest is being offered.

Microfiche

The SDI service is available on COM (Computer Output on Microfiche). Specific topics can be used to generate either subject series, containing full bibliographic details and informative abstracts, or author series containing the bibliographic details. The cumulative COM service is provided quarterly.

Diskette

CABI appreciates that many of its information users are equipped with microcomputers. The SDI service has been extended to diskettes for the convenience of CABI customers. Diskettes, containing current input to the CABI production database, are issued weekly, monthly or quarterly.

CD-ROM

CABI has produced a CD-ROM prototype which has been on trial at over 40 key sites in 26 countries. User assessments, due June 1987, will be used to formulate CABI's future CD-ROM strategy. For further information please write to CABI's Marketing & Sales Division.

Document Delivery Service

The originals of most articles abstracted for the CAB ABSTRACTS database are available as photocopies. Order forms and copyright declarations are printed in each journal (or are available in bulk). Documents may also be ordered online via Dialog's DIALORDER or ESA's PRIMORDIAL.

Training

To help users get best value for money, C·A·B International provides user training and education. There is an annual course entitled 'Information on Agriculture' in Oxford, designed to give information officers and librarians, particularly from developing countries, a sound background in agricultural information practice. In addition, there are many one-day workshops in the USA, Europe and elsewhere, facilities for on-the-job training at the C·A·B International Centre, and tailor-made courses on data preparation for organizations supplying input for the database.

ORDERING INFORMATION

Journals

Subscriptions should be fully paid by 1 December for the volumes to be issued in the following year. Many journals are available at special rates to subscribers in member countries. A subscription provides entitlement to each part plus the annual index. Rates include packing and mailing by air to distant countries wherever the cost can be absorbed. Orders should be sent to the address below.
Back numbers, including microfiche editions, are available at discounted prices. Further details will be given on request.
